Repair Broken Valve Boxes In Just 10 Minutes.

Kerf Cutter makes repairing broken valve boxes quick, easy and longer lasting.

No longer is there a need to bring in costly and dangerous heavy equipment to cut asphalt, dig out the broken section of the road and patch the pavement only to see the road settle months later and having to fix it again next year.

What once took 10 hours to repair, now only takes 10 minutes... often less.

With Kerf Cutter, its 3 simple steps to repairing broken valve boxes.

Cut

Extract

Insert

Kerf Cutter eliminates the need for closing busy streets for long periods of time, reducing traffic disruption and community frustration.

Kerf Cutter will change the way you think about repairing broken value boxes. Our powerful 110 volt, 15 amp lightweight Bosch motor Kerf Cutter will more than **pay for itself in the first year.**

So confident in our product **we offer a three year comprehensive warranty** on all parts.

Kerf Cutter makes repairing broken valve boxes quick, easy and longer lasting. It more than pays for itself in the first year!

Kerf Cutter is the latest innovation for municipal water and street departments to fix broken valve boxes. Kerf Cutter is a handheld, electric tool with a circular blade on the end. It is inserted into the valve box and cuts off the top of the valve box. Once that is removed, a new top can be inserted and leveled with the pavement.

Kerf Cutter's 2' Cut Gauge insures precision measuring for that required perfect cut.

Kerf Cutter's Puller is used to extract broken valve box from concrete, asphalt, landscaping brick and gravel.

Kerf Cutter's Basket and Ring is used to make a clean cutting, level, uniform cuts every time.

Kerf Cutter's all inclusive tool kit, insures that everything you need is always on-hand, making repairing broken valve boxes quicker and easier than ever.

Some of the tools provided in **Kerf Cutter's tool kit** includes the following items:

Kerf Cutter's powerful handheld 110 volt, 15 amp lightweight Bosch motor is up for any task, any time of the year.

Our starter set of 4.5", 5" and 6" cutoff wheels makes for fast cutting and precision work.

Our 6" diameter, 2" thick, 16 grit concrete and asphalt grinding wheel, the industry's best, makes for quick work.

Kerf Cutter's all inclusive tool kit, three year comprehensive warranty, better long-term solution for repairing broken valve boxes, short-term payback... makes your purchase decision easy.
