

HYDRANT BUDDY

POWER | PRECISION | INJURY-REDUCING

Hydrant Buddy is the industry's most powerful, lightweight valve operation tool designed to operate both hydrants and gate valves. It is cordless, electric and variable speed.

- POWERFUL
- LIGHTWEIGHT
- CORDLESS

The safer and easier solution to hydrant flushing.

Powered by a Milwaukee industrial motor and custom engineered gearbox, Hydrant Buddy is up for any task. Weighing only 23 pounds, it improves productivity and is easy to use, while reducing operator fatigue and chance for injury.

The long lasting battery operates approximately 15-20 hydrants before needing a quick 30 minute charge.

Hydrant Buddy was developed in cooperation with Minnesota municipalities to reduce injuries, increase productivity and reduce to cost of work. Hydrant Buddy makes work easier and reduces the risk of the following injuries often associated with hydrant flushing.

- Rotator cuff tears and tendonitis
- Lower back strain and fatigue
- Tennis elbow
- Joint pain
- Pinched spinal nerves
- Carpal tunnel

The Hydrant Buddy Kit includes:

- ✓ Hydrant Buddy wrench
- ✓ Custom wood crate or heavy duty bag
- ✓ Adjustable pentagon socket
- ✓ One charger
- ✓ Two rechargeable batteries
- ✓ User Manual
