GRAND LX
VALVE MAINTENANCE TRAILER

The Wachs Grand LX Valve Maintenance System has all the tools for water distribution preventative maintenance. Built for safe operation, a two-person crew can find valves, wash out valve boxes, and safely exercise and rehabilitate valves up to 13 feet away with the ERV-750 valve exerciser. The included handheld computer with VITALS Software records the valve info and status for transfer back to headquarters.

The *Grand* feature of this top-of-the-line trailer is the heavy duty Wachs TM-7 HD Plus valve operator. Mounted in-line with the driver, this exerciser is ideal for emergency operation. Using VITALS with the TM-7 HD Plus provides programs for automatic exercising with an emergency mode for immediate torque application.

FEATURES

- **TM-7 HD Plus valve exerciser**
 - Ideal for emergency shutdown needs
 - Operate stubborn, large, and stuck valves
 - Intelligent Automation
- **ERV-750 valve exerciser**
 - Ideal for preventative maintenance and rehabilitation
 - Reach curbside valves
 - Operate multiple valves and hydrants from a single location
- **Vacuum System**
 - Capture debris and spoils from valve boxes
- **TC-100 ruggedized handheld computer with VITALS**
- **HTMA Class II hydraulic circuit**
 - 10 gal reservoir
 - Fan-cooled heat exchanger
 - 45 ft hoses w/ reel
- **LED Light Package**
 - Control Panel
 - Programmable Arrow Board
 - Directional spot lights
- **Pressure washer system**
 - Short wash down gun
 - Long hydro excavation gun
 - 95 gal water tank/reservoir
 - 50ft retractable hose w/ reel

TM-7 HD Plus valve operator provides 2500 ft-lb of torque for turning large valves

With the ERV-750 extended reach valve exerciser an operator can turn multiple nearby valves without moving the vehicle

The heavy-duty spoils tank features a two-cylinder electric over hydraulic slide, tilt and dump functionality for easy emptying

The ruggedized TC-100 handheld computer / wireless controller / datalogger provides intuitive remote exerciser control
