M130 Gas Power Cutter Walk Around

Handle with lock capability

Easy-to-move handle rotation to raise and lower blade during the cut featuring handle lock-in-place option to keep blade at certain depth

Large Integrated Water Tank

8-gallon tank reduces downtime and increases productivity

External Water Connection

Ability to connect directly to a hose for continuous water supply for cutting

User-Friendly Designed

Focused on reducing operator fatigue, enhancing comfort and efficiency during prolonged use

Honda GX390 Engine

Crafted with high-quality components like a cast iron cylinder sleeve and ball bearing supported crankshaft ensure long-term performance

Fits up to a 20" blade

Maximum cutting depth of 8"

Small Size

Compact and lightweight for ease of transport between job sites and efficient cutting in tight spaces
