

# THE EZLYFT

## EZLyft Magnetic Lifting Tool Product Spec Sheet

### PRODUCT OVERVIEW

The EZLyft Magnet Lid Lifter is a compact, high-strength magnetic lifting tool designed to make removing heavy steel lids, access covers, and plates safer and easier. Its lightweight aluminum body, foldable ergonomic handle, and powerful N52 magnet help reduce bending, finger strain, and awkward lifting.

Built for both home and professional use, EZLyft is a simple, reliable solution for tough lifting jobs.

### KEY BENEFITS

- **Strong magnetic grip:** High-strength N52 neodymium magnet for secure attachment.
- **Lightweight & durable:** Aluminum body with reinforced housing.
- **Comfortable to use:** Ergonomic, non-slip dual-material handle.
- **Folds flat:** Easy to store in a toolbox or vehicle.
- **Surface-friendly:** Built-in silicone pad helps protect lid surfaces.
- **Long-lasting:** Corrosion-resistant magnet coating and stainless hardware

### TECHNICAL SPECIFICATIONS

- **Overall Dimensions:**
  - Height: 3 ft 3 in
  - Width (Handles Open): 1 ft 4 in
  - Width (Handles Folded): 5 in
  - Width (Base): 5 in
  - Magnet Radius: 3.5 in
- **Weight:** 5.88 lbs
- **Maximum Lifting Capacity:** 175 lbs
- **Lift Force:** over 700 lbs
- **Materials:** Aluminum, reinforced plastic, rubber, silicone
- **Finish:** Matte
- **Colors:** Orange / Grey / Black
- **Magnet Type:** N52 Neodymium (Nickel plated)
- **Handle:** Foldable, ergonomic grip
- **Hardware:** Stainless steel Nylok fasteners
- **Manufacturing Process:** CNC + Injection molding
- **Compliance:** RoHS, REACH, Prop 65
