

infraMAP® IS YOUR BEST TOOL

Supports Real-Time Data Collection from EH Wachs Automated Valve Exercising Equipment.

infraMAP® includes ability to create immediate tasks, schedule work and assign tasks to field crews.

Inspections can be done out in the field in Real-Time, no more data entry at the end of the day!

OUT IN THE FIELD...

- Easy to use and Cloud-Based!
- Create immediate tasks, complete assigned work and scheduled tasks.
- View maintenance history and lifecycle status
- Red line corrections to the map in the field
- Collect, Update and Inspect in Real-Time or Offline
- Navigate to tasks with turn by turn directions

...OR IN THE OFFICE

- infraMAP® contains extensive reports for instant answers
- Schedule work and tasks for field crews
- View inspections/work performed by crews
- Use in any department, district or citywide
- Easy to use and Cloud-Based!
