

vCamMX-2+ Upgrades

The vCamMX systems used SD camera heads, models D18-MX and D26-MX will be replaced by the newer D18-HD and D26-HD camera heads. The SD (standard definition) components are no longer available to us so we must switch to HD (high-definition) components. The D18-MX and D26-MX camera heads are no longer available for sale but can be used in our Camera Exchange Program.

Some older vCamMX systems must be upgraded in order to use the new technology of the HD camera range.

vCamMX Control Module + Camera Head Trade-up - Your vCamMX Control Modules have a trade-in value! Upon receipt of your vCamMX Control Module and MX camera a new vCamMX-2+ Control Module and HD camera head will be shipped at a discounted price. See the order codes listed below.

vCamMX Full System Trade-up - Your vCamMX full system has a trade-in value! Upon receipt of your complete vCamMX or vCamMX-2 system, (Consisting of a control module, reel w/pushrod, spring assembly and D26-MX camera head) a new vCamMX-2+ system will be shipped at a discounted trade-up price. See the order codes below.

* These price do not include shipping, applicable taxes or any additional repairs required.

Identify your vCamMX and series control module

Product Label	Model/serial number	Recommendation
	Model VX110-01 Serial number starts with 11001	Trade up the system or control module and camera head.
	Model VX112-01 Serial number starts with 11201	Serial numbers above 11201180831 can have the DVR board replaced or main board updated. Serial numbers below this should consider the trade up program.

Identify if your vCamMX-2 control module has an upgraded DVR.

1. Make sure the vCamMX-2 has the latest firmware, MX_4.4.76 installed.
2. Turn on the vCamMX-2 and go to SETUP then SYSTEM. If the YES appears in the TP2825B space this means that the unit has the latest DVR and no upgrade is needed. It may be possible that it will still need the component update if the serial number is below 11201160270.

vCamMX-2+ Camera Head Compatibility

Inspection System	Camera Head		
		D26-HD	D18-HD
vCamMX-2+		Y	Y
vCamMX-2		Y*	Y*
vCamMX		N	N
Type-MX Reel with vCam-6 Control Module		Y	Y
Type-MX Reel with vCam-5 Control Module		N	N

* Only with an upgrade or trade up to the vCamMX-2

No action is required for vCamMX-2 units starting with serial number and above 11201190040 (shipped after 6/8/2023) or as defined in appendix A.

Appendix A - Serial Number Range

These units were updated at the factory before shipping so no action is required
